Sustainable Maryland Wednesday Webinars

How to Start a Community Garden

Trinity Tomsic

Berwyn Heights Community Garden Manager

December 2, 2015

Sustainable Maryland

- Free & Voluntary program for communities that want to go green and save green!
- We help communities
 - Choose a direction for their sustainability efforts
 - Improve access to resources
 - Measure their progress
 - Share success with other communities

Actions for Sustainable Communities:

To become Sustainable Maryland Certified, municipalities must complete and document actions from the list below. To achieve certification, municipalities will need to complete actions worth a total of 150 points, including two Mandatory Actions (M) and two of six Priority Actions (P), and submit the appropriate documents as evidence that the requirements have been satisfied.

ACTION ITEM	POINTS
COMMUNITY ACTION	
Green Team	
Participate in SMC Green Team Training	5
Create a Green Team	10 M
Complete a Green Team Action Plan	10 M
Conduct Community Barriers and Benefits Assessment	15
Build SMC Resource Center	5
Participation in MD Green S	:10

Overview: key questions

- What are the steps to create a community garden?
- What are the major obstacles?
- What are tips for having a successful garden?
- Where can I find additional resources?

Assess community need

- Determine need/desire for a community garden; build support and excitement
 - Formal (survey) and informal (discussion with friends, residents, community groups)
- Gain support from local officials
 - Land
 - Financial resources
 - Town staff assistance

Begin planning process

- Establish community garden planning committee
 - Outreach, skill set/roles, size
- Develop implementation plan/timeline
- Visit other community gardens
- Identify site
- Design site
- Prepare budget/proposal

Develop implementation plan (BH example)

Activities	Timeline
Conduct site visits	Aug. 2013
Identify site, meet with key experts	Sept. 2013
Develop site plan	Sept. – Oct. 2013
Research resources, pricing options	Oct. – Nov. 2013
Brief Town Council	Nov. 2013
Prepare site, purchase items	Nov. 2013 – Apr. 2014
Solicit donation/apply for grants	Ongoing
Finalize rules/regulations, application	Dec. 2013 – Jan. 2014
Conduct outreach	Ongoing
Rent plots, conduct training	Spring 2014
Open garden	Apr. 2014

Conduct site visits

- Contact coordinator
 - List of gardens, contact information: <u>http://extension.umd.edu/growit/community-gardens</u>
- Obtain valuable information on garden design, resources, best practices, challenges, rules/ regulations

Site visits: questions

- 1. How many plots do you have?
- 2. What is the size of the plots?
- 3. What shared resources do you provide?
- 4. What are your major expenses?
- 5. What are your major revenue sources?
- 6. What have been your biggest challenges?
- 7. How did you solve those challenges?
- 8. How much do you charge for plots?

Site visits: questions

- 9. What are your application procedures and participant requirements?
- 10. Do you utilize a contract, written agreement?
- 11. Do you use a "Hold Free of Harm" or at-risk, no litigation clause? If so, have there been issues associated with that?
- 12. What type of fencing (if any) do you have? How well does it work, or if it does not work well, why? How much did the fencing cost?

Site visits: questions

- 13. How do you communicate with participants?
- 14. What type of information/training do you provide?
- 15. What is your water source? What are the advantages/disadvantages of your method?
- 16. What assistance, if any, did you receive from the town, city, county, or state?
- 17. Any other things we should consider?

Identify Site

- Size
- Terrain
- Sun
- Water source
- Location
- Land ownership, potential partnerships
- Parking availability
- Soil testing

Identify Resources Needed

- Will the site need to be fenced?
- Will the site need to be cleaned (trees trimmed, debris cleared, trash removed)?
- What shared resources will be provided?
 - cistern, compost bin, shed, picnic table, tools, seeds/transplants, herb garden, bulletin board
- Is compost and mulch available?
- Others: tilling, raised beds, perennial bed, liability insurance

Design site

- Location and size of beds
- Location for water source
- Location of other shared resources
- Common or shared gardens (herb garden, perennial bed)
- Garden sign, name
- Gates, driveways, pathways, and open spaces

BH Community Garden

Solicit support

- Local government
- Donations/discounts from local businesses
- Grants
- Donations from residents
- Master gardeners, other experts
- Eagle scouts, students needing community service hours
- Mulch from Pepco

Prepare site

- Install fence
- Clean site
- Add compost
- Till beds
- Build raised beds, add more compost
- Install cistern, piping
- Mulch pathways
- Build shed, compost bin

Prepare garden regulations

- Application fee: How much? Will there be a sliding scale? When is the fee due?
- Plot maintenance: What is the standard? What happens if a plot is not maintained?
- Garden maintenance: Are gardeners expected to volunteer for certain chores?
- Planting restrictions: Are there restrictions on which types of plants can be grown?
- Pesticides/fertilizers: What types will be allowed?
- Compost: What materials may be composted?

On-going maintenance

- Add compost to plots
- Schedule regular clean up days
- Develop schedule for filling cistern, mowing lawn, watering shared beds
- Establish goals/enhancements each year
- Ensure garden is winterized

Obstacles

- Communicating with gardeners that don't have or check email
- Ensuring plot renters take care of shared resources
- Keeping garden secure
- Plot maintenance/harvest, especially during vacations
- Garden pests
- Participation at work days; meetings

Tips

- Visit neighbors by garden to encourage participation
- Create a welcome packet
- Utilize multiple means of communication
- Create a garden roster/map
- Celebrate and invite neighbors; have table at town events
- Provide regular training
- Ask for feedback

Tips

- Add a perennial bed (great for attracting beneficial insects)
- Inspect plots for garden pests, provide information based on common problems
- Provide row covers
- Donate excess to a food bank
- Evaluate your progress
